11 & 12 Trig graphs and solving trig equations

Draw/sketch graphs of sine, cosine & tangent. Recognise the symmetries of the curves. Exact values of some trig ratios(0, 30, 45, 60, 90)
Solve trig equations to find the value given on your calculator and then other possible values with a range eg -360°< x < 360°

https://www.drfrostmaths.com/videos.php?skid=164 exact values

https://app.mymaths.co.uk/329-lesson/sine-and-cosine-graphs includes solving equations
